Lucknow, Uttar Pradesh • +91 9559506292 • varunsinghbot@gmail.com • [LinkedIn](#) • [GitHub](#)

OBJECTIVE

Full-Stack Developer with hands-on experience building real-time, scalable web applications. Passionate about system design and delivering enterprise-grade solutions using modern JavaScript/TypeScript ecosystems. Looking to contribute to Cisco's web development initiatives through clean architecture and impactful engineering.

TECHNICAL SKILLS

Languages: JavaScript / TypeScript, Java, Go

Frontend: React.js, Next.js, Tailwind CSS

Backend: Node.js, Express.js, Go

Databases / ORM: MongoDB, PostgreSQL, Prisma

Architecture & Tools: REST APIs, WebSockets, Socket.io, Redux Toolkit, Git/GitHub, Turborepo

EDUCATION

Master of Computer Applications (MCA) 2025 – 2027

CHRIST University, Central Campus (Currently Pursuing)

Bachelor of Computer Applications (BCA) 2022 – 2025

Amity University

WORK EXPERIENCE

RealtyEaseAI Apr 2025 – Oct 2025

Web Developer Intern

- Architected a SaaS app with subscription-based access and role-based workflow (User → Agent → Manager).
- Implemented real-time chat using WebSockets and Socket.io for seamless multi-user communication.
- Built a timer-based work hour tracking system, improving team productivity monitoring.
- Developed and deployed the company business website, enhancing online presence and brand visibility.
- Contributed to backend APIs, database schema design, and system architecture for scalable solutions.
- Managed full-stack monorepo structure using Next.js & Turborepo across multiple environments.

PUBLICATIONS

IEEE Conference Paper - BNMIT Bengaluru, 2025

- Main author of paper titled "Decentralized E-Commerce (deCom) Development based on Token Trade Store" presented at IEEE conference at BNMIT Bengaluru.

CERTIFICATIONS

Web Dev 3 Cohort - Full Stack Web Development + DevOps + Blockchain | Issued July 2024, Awarded Jan 2026

PROJECTS

Real-Time Collaboration Platform <https://github.com/VarunSinghBot/real-time-collaboration-platform>

- Full-stack team productivity platform with real-time task management, video calls, and collaborative whiteboard using Go, WebSockets, and Turborepo.

SkillPilot (Hackathon) <https://github.com/VarunSinghBot/SkillPilot>

- AI-powered learning platform that merges skill-based courses and generates a completion ratio to identify knowledge gaps.

Smart Price Tracker (Team Project) <https://github.com/VarunSinghBot/smart-price-tracker>

- MERN-based price tracking platform with web scraping (Amazon, Flipkart, eBay), price history, cron-based updates, and alerts.

Real-Time Chat Application <https://github.com/VarunSinghBot/ChatApp>

- Secure real-time chat app built with WebSockets, Socket.io, and session-based authentication.

Amazon Clone (MERN Stack) <https://github.com/VarunSinghBot>

- Full-stack e-commerce app with authentication, product management, and responsive UI.

Minimalist Web Crypto Wallet <https://crypto-batua.vercel.app>

- Secure crypto wallet for ETH and SOL with clean UI and frontend-backend integration.
